

Become a Friend of 2econd Chance

2econd Chance
Empower people and reduce e-waste

Why become a Friend of 2econd Chance?

At 2econd Chance we believe all people with disabilities and additional needs should have the opportunity to do something purposeful, have access to training and work opportunities, and be part of community life.

Using computers and tech as an entry point, we train people to restore unwanted laptops, computers and phones which are then sold at low cost or given free to people on low incomes, helping to reach those who are digitally excluded.

And by refurbishing unwanted tech we also help to reduce the amount of e-waste going into landfill.

We are now at an exciting stage of growth but in order to expand our impact we need to significantly increase the number of devices donated to us, particularly through larger corporate partnerships.

Each week we support around 45 trainees in our workshop and donate around 50 devices per month. But we'd love to expand this and reach even more people.

Our **Friends of 2econd Chance** is a network of supporters who can help us achieve this.

What is a Friend of 2econd Chance?

A Friend of 2econd Chance is a voluntary ambassador who believes in our mission and is willing to champion our work within their professional and personal networks.

This is not a trustee role and does not involve governance responsibilities. It is a light-touch, ambassador-style commitment focused on making introductions and opening doors to potential corporate donors and supporters.

Friends act as connectors and advocates, helping us build relationships that attract more devices and funding which in turn will enable more training places and more free devices for those who need them.

Year one goals

In the first year of the programme we hope our founding Friends can help us secure at least 1,000 donated devices and raise £25,000 to expand our training and digital inclusion work.

What does being a Friend entail?

We aim to keep the commitment simple and manageable.

We ask our Friends to:

- ▶ Make one to three introductions per year to organisations that may be able to donate devices or provide support.
- ▶ Introduce potential fundraising opportunities or individual supporters where appropriate.
- ▶ Champion and promote the work of 2econd Chance within your network.
- ▶ Share key updates or campaigns with relevant contacts and on your social media channels.
- ▶ Visit our workshop to meet the team and see our work first-hand.
- ▶ Attend one update session every six months, which can be virtual.
- ▶ Commit to at least one year — however this can be revised at any time.

As a Friend you will receive...

- ▶ Clear information to support any introductions you make.
- ▶ Impact updates to keep you updated about the positive impact and outcomes of your support.
- ▶ Invitations to events and workshop visits.
- ▶ Recognition as a Founding Friend of 2econd Chance on our website and social media.
- ▶ The opportunity to directly contribute to meaningful social and environmental impact.
